

Job Title: Civil Engineering
Project Manager

Location: Kalamazoo, MI

Job Summary: Tired of being chained to a desk with calculator calloused fingers? What if you could run a meeting in the morning and then go get knee deep in the mud in the afternoon. Jones & Henry is a 94-year old firm with a diverse roster of clients in SW Michigan, seeking a Civil Engineering Project Manager with experience in water and wastewater treatment and conveyance. This opportunity is reserved for someone who is driven for excellence, client satisfaction, and has the technical capabilities and understanding to take on projects from initial concept to successful completion. If you can embrace managing multiple projects and like being where the action is, you should send us a resume so we can get to know each other. Experience in underground utilities is preferred, water/wastewater treatment experience is a plus. The position is responsible for the oversight of technical designs and development of water & sewer mains, storm sewers, storm drains, roads, and water/wastewater treatment systems. This position works with the engineering staff and technicians to provide projects on time and within budget. Travel between the Jones & Henry regional offices and job sites may be required.

Minimum Requirements:

Bachelor or Master of Civil Engineering or Environmental Engineering (or equivalent)
Michigan Professional Engineer (PE) license, or Reciprocity is required

Preferred Qualifications: 7+ years of experience

What We Offer: Jones and Henry Engineers, with our 5 regional offices, offers a unique opportunity to work with fellow employees that believe the work we do is important and care about the communities we serve and live in. Our engineers interact with our clients to solve problems and implement practical solutions while maintaining high standards and providing quality service. Continuing education and advancement of skills are encouraged at every career level. Jones & Henry offers a robust bonus incentive program, educational reimbursement, and competitive health care benefits.

Specialty: Water, Wastewater, and/or Utility Engineering

Position Status: Full-Time

Minimum Physical Demands: Ability to travel to job sites and maneuver around project sites. Sitting, walking, bend, kneel, climbing stairs, and occasional lifting and moving up to 25 pounds. Visual acuity to perform responsibilities.

Jones & Henry Engineers is inclusive workplace with a commitment to awesomeness.
