

**Job Title:** Structural Engineer

**Location:** Toledo, OH

**Job Summary:** Jones & Henry is seeking a Structural Engineer with experience to support our established team in the region designing water and wastewater treatment facilities. As a Structural Engineer, you would be responsible for performing engineering calculations, developing details, writing specifications, construction cost estimating, minor architectural design, reviewing shop drawings and field inspections, including confined space tank entry. Join an engineering team that values providing excellence in water-related engineering to our clients.

**Minimum Requirements:**

Bachelor or Master of Civil or Structural Engineering (or equivalent)  
Professional Engineer (P.E.) license required or willingness to pursue.

**Preferred Qualifications:** 3-10+ years of experience

**What We Offer:** Jones and Henry Engineers, with 5 regional offices, offers a unique opportunity to work with fellow employees that believe the work we do is important and care about the communities where we live and serve. Our engineers interact with our clients to solve problems and implement practical solutions while maintaining high standards and providing quality service. Continuing education and advancement of skills are encouraged at every career level. Jones & Henry offers a robust profit-sharing program, educational reimbursement, and competitive health care benefits.

**Specialty:** Structural Engineering

**Position Status:** Full-Time

**Minimum Physical Demands:** Ability to travel to job sites and maneuver around project sites. Sitting, walking, bending, kneeling, climbing stairs, and occasional lifting and moving up to 25 pounds. Visual acuity to perform responsibilities.

*Jones & Henry Engineers is an Equal Opportunity Employer.*
