

For nearly a century, Jones & Henry has been a trusted provider of Fluid thinking to complex water and wastewater challenges. Join an engineering team that values providing excellence in engineering to our clients.

Job Title: Civil/Environmental Project Engineer, Municipal

Location: Fort Wayne, IN

What We Offer: Are you looking for an opportunity to excel as a critical member of a dynamic engineering team? Jones and Henry Engineers offers a unique opportunity to collaborate with fellow professionals that believe the work we do is important and care about the communities we serve and live in. From our 5 offices, our engineers interact with our clients to solve problems and implement practical solutions while maintaining high standards and providing quality service. Continuing education and advancement of skills are encouraged at every career level. Jones & Henry offers a robust profit-sharing program, educational reimbursement, and competitive health care benefits.

Job Summary: Jones & Henry is currently looking for an exceptional engineer with experience in water-related design and consulting to enhance our growing Fort Wayne office. This is a unique opportunity to build upon your knowledge working with a team of professional engineers with years of experience. This position will perform technical assignments related to the design and control of various water treatment, distribution systems, wastewater treatment and collections infrastructure. Responsibilities include formulating design criteria on assigned projects, development of project proposals, contract specifications, the coordination and review of detailed project design plans with Project Managers and CAD Modelers, conducting field work which may involve occasional travel to job sites, evaluating and recommending equipment and materials to be used, and preparing written reports regarding needed improvements to municipal facilities. Our firm has an established track-record of establishing successful careers in the industry.

Minimum Requirements:

Bachelor or Master of Civil Engineering or Environmental Engineering (or equivalent)

Preferred Qualifications: 5+ years of experience

Professional Engineer (PE) License required

Specialty: Municipal Engineering

Position Status: Full-Time

Minimum Physical Demands: Ability to travel to job sites and maneuver around project sites. Sitting, walking, bending, kneeling, climbing stairs, and occasional lifting and moving up to 25 pounds. Visual acuity to perform responsibilities.

Jones & Henry Engineers is an Equal Opportunity Employer.
